Becoming a member of the IUCr as a seed to the crystallography growth in Costa Rica and in Central America
What is Costa Rica doing in crystallography?

- IYCr

http://www.cientec.or.cr/programas/estudiantes/xx-certamen-nacional-de-ensayo-cientifico-2014
What Costa Rica expects as a member of the IUCr?

- Promote and strengthen international cooperation.
- Continue with schools and participation in OpenLabs.
- Encourage the study and dissemination of crystallography not only in Costa Rica but also in Central America.
